

FLIPPIN' BRILLIANT.

MOTOROLA BACKFLIP™ with MOTOBLUR™

Welcome

MOTOROLA **BACKFLIP** with MOTOBLUR syncs contacts, posts, feeds, messages, e-mails, photos and much more—from sources like Facebook, Twitter, MySpace, Google Mail, Yahoo, your work e-mail, Picasa, Photobucket and LastFM—and serves it up just the way you want it.

Your phone

Most of what you need is on the touchscreen and three simple keys on the front:

- **Home:** Go to the home screen.
- **Menu:** Open menu options.
- **Back:** Go back one screen.

If you want a full keyboard (good for texting or searching in your **Contacts** list), just flip open your phone—the screen spins to stay the right way up.

With your phone open, you can also flick and double-tap the square touch pad on the back of the display!

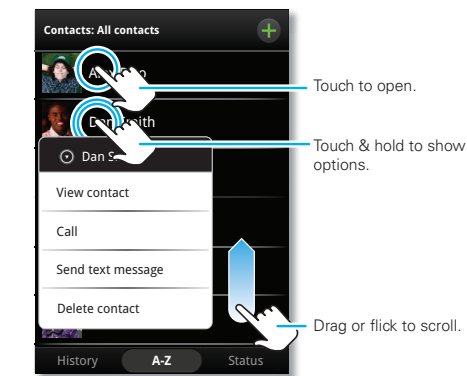

Let's go

Let's get you up and running.

Tip: Your phone comes with a microSD memory card already installed. It's right next to your SIM card.

Caution: Before assembling, charging or using your phone for the first time, please read the important **Safety, Regulatory & Legal** information provided with your phone.

Home

The *home screen* gives you all your latest information in one place. It's what you see when you turn on the phone or touch Home (⌂) from a menu.

Use the widgets, shortcuts and panels to see what's important to you—whether it's home, work or play.

Tip: If your screen goes to sleep, press Power (⏻) to wake it up.

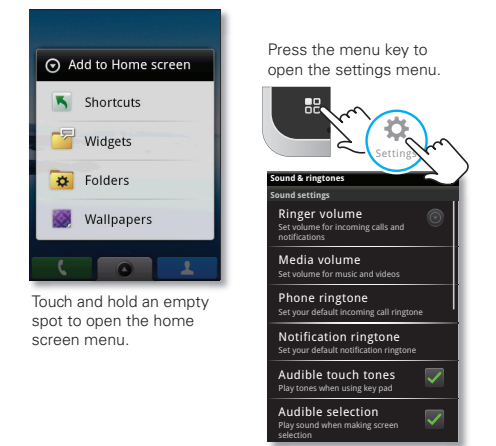

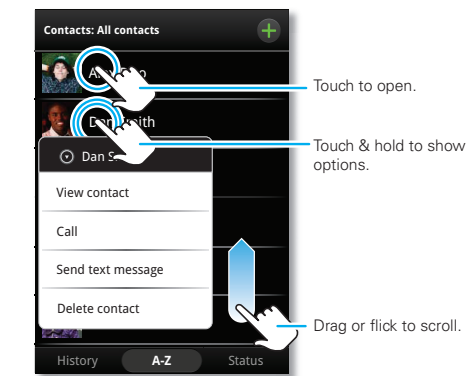

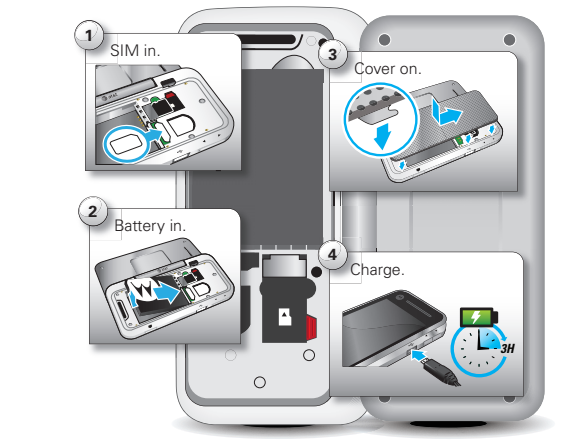

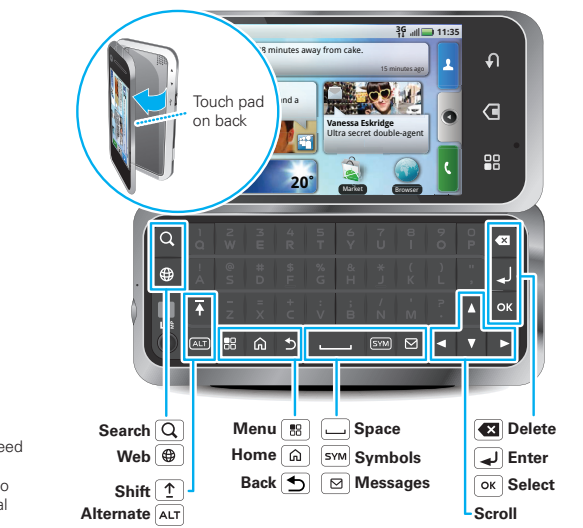

Personalise

Go ahead, add your personal touch. Change your widgets, wallpaper, ringtone and more—make it yours.

• **Home screen:** To add something or change your wallpaper, touch and hold an empty spot until you see the **Add to Home screen** menu.

Tip: To move or delete something, touch and hold it, then drag it to another spot, another panel or the bin.

• **Ringtones & sounds:** Touch Menu (☰) > **Settings** > **Sound & ringtones**.
